

Ihab Girgis

Chief Operating & Technical Officer, Arcius Energy

Mr. Ihab Girgis is the Chief Operating Officer of Arcius Energy and a member of the company's Executive Leadership Team. With more than 25 years of experience spanning global IOCs and independent operators, Ihab brings a unique blend of technical depth, strategic insight, and a steadfast commitment to safety and integrity in leadership.

He has led major transformation programs in operations, safety, and sustainability, shaping Egypt's upstream industry through innovation and strong partnerships. A passionate advocate of Safety Leadership and values-based management, Ihab believes that integrity, accountability, and care for people are at the core of lasting operational excellence.

Prior to joining Arcius, he held senior leadership roles across multiple international and independent E&P companies, leading large-scale production and field development programs. A graduate of Sheffield University and Imperial College London, with an MBA Diploma from INSEAD, Ihab is widely respected as a people-centered leader and thought voice in the regional energy sector.
